

Isothermal Community College has a complete set of image branding tools from Set?Communicate!

A place to begin
located on 112 acres along Highway 74 in a lush, wooded area, Isothermal's beautiful, state-of-the-art campus is highlighted by an 11-acre lake that provides students and visitors an idyllic view of the campus. Recently placed throughout wooded walkways and picnic tables situated in several locations around the lake are perfect spots for studying and relaxing. The newly located Center for the College Fall, a convenient place for students to purchase books, is a convenient place for students to purchase books. The College Store stands near the center of campus and has become a hub for students and faculty alike. Established in 1981, Isothermal is a member of the Polk County Campus in Columbus, N.C., which offers a variety of services and a library for students and faculty of the community.
